

## Company

Vechain is a global organization working to enable mass blockchain adoption. Our Web3 ecosystems, deep cross-sector expertise and research-backed innovation are jumpstarting scalable sustainability solutions. The foundation of the vechain ecosystems is our layer-1 blockchain VechainThor. One of the world's most energy-efficient blockchain platforms, this transparent, trustworthy, decentralized structure is vechain's bottom line in the creation of innovative, new business models to deploy across industries. To date, we have already connected over 300 enterprise partners with real-world solutions. Bolstering trust, collective sustainability action, redefined value and interconnected ecosystems is the vechain prerogative.

## Our Culture

We're a hard-working, innovative, and passionate group intensely focused on building great Web3 products and Sustainability solutions. Look closely and you'll see some common traits we look for in all our hires. We take extreme ownership, embrace feedback, and are high-performing individuals that work great in team environments. We're mission-focused, yet comfortable in dealing with change and ambiguity, and we're not afraid to change direction when we need to. Above all, we're optimists and want people to join us who thrive in fast-paced, high-quality, and disruptive environments.

## The role

We are currently seeking Security Analyst for a newly formed role in our Tech team. You'll play a key security-focused role supporting some of our most exciting projects. If you are passionate about ensuring the utmost security of digital assets and systems, and possess a keen eye for identifying vulnerabilities, this could be an exciting opportunity for you!

## Work you'll do

Individuals in this role would be responsible for a variety of activities including:

- Monitor threat landscape for Vechain technical teams
- Analyse information gathered with security tools to identify potential security issues.
- Determine the appropriate team to engage in discussions regarding identified security issues.
- Track and follow up on security issues, pushing for deadlines for necessary fixes.
- Stay updated with developments in the Blockchain security space by gathering information from weekly newsletters.
- Prepare and deliver concise 15-minute presentations on Blockchain security topics on weekly basis.
- Alert the Security Lead in the event of any serious security concerns related to Vechain security posture.
- Organize and maintain documentation related to security.
- Investigate security breaches and other cybersecurity incidents

## Qualifications and Skills

Required:

- Experience in information security or a related field
- Understanding of firewalls, proxies, SIEM, antivirus, and Secure SDLC concepts
- Ability to identify and mitigate vulnerabilities and explain how to avoid them
- Understanding of patch management
- Project management for security related initiatives
- Excellent oral & written technical communication skills
- Knowledge of securing APIs
- Experience in Web and/or Mobile applications and common vulnerabilities

- Flexibility/adaptability – comfortable working with ambiguity and continually evolving priorities
- Demonstrated ability to team and collaborate effectively
- Comfortable working in a virtual environment
- Willingness to travel as required
- Bachelor’s degree in computer science or equivalent

**Preferred:**

- Blockchain relevant experience
- AWS Security certified
- Familiar with Agile/Scrum methodology

***Why Join Us:***

- Opportunity to work in a dynamic and innovative environment.
- Competitive compensation package with benefits.
- Collaborative culture that values growth and development.
- Chance to make a meaningful impact in securing our digital assets.

If you're ready to take on this exciting challenge and contribute to our mission of maintaining top-notch security standards, apply now! We look forward to welcoming you to our team.
